

Revitalize your outdoor living space!

Dream[®] Deck

Maintenance-Free Vinyl Decks

Dream® Deck Systems...Revitalizing Outdoor Living Spaces!

What dreams do you have for improving your outdoor living space? Do you dream of an outdoor space to entertain? Dream® Deck Systems offer attractive and secure surfaces for your guests to mingle on.

Are you unhappy with the look and upkeep of your existing deck? Our low-maintenance Dream® Deck surfaces enable you to enjoy your deck, rather than maintain it.

Do you just want a space to relax and enjoy your surroundings? With the comfort of any of our Dream® Deck Systems, you can escape to an exclusive vacation spot in your own backyard!

Revitalize your outdoor living space with the Dream® Deck Outdoor Product Line.

Our unique Dream® Deck Systems combine beauty, form and function, enabling you to relax outdoors without the continuous upkeep required for wood decks. Staining, waterproofing and expensive repairs are no longer a necessity with your new, low-maintenance Dream® Deck System.

Not only will you increase the quality of your outdoor life, but you can also be assured that your family will always be safe on your new Dream® Deck. Our entire Dream® Deck Outdoor Product Line is environmentally responsible and manufactured with non-toxic materials, eliminating all hazardous chemicals and preservatives. In addition, each deck plank is crafted with a slip-resistant and splinter-free Barefoot Friendly™ surface, leaving you with a good feeling about your investment... from head to toe.

Build the outdoor living space of your dreams with one of several appealing selections from the Dream® Deck family.

The Dream®Deck Classic System features a patented crowned vinyl plank design that facilitates water drainage. This is combined with a unique and attractive embossing pattern to provide a non-slip walking surface. Dream®Deck Classic will not splinter, and has no exposed fasteners. Choose from white, earthtone and gray colors to complement your home's exterior.

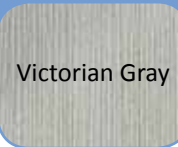

Dream®Deck with Vy-Grain™ vinyl deck plank features an embossed surface with a unique textured woodgrain pattern, offering the look of wood with virtually no maintenance! Its easy-to-install, tongue and groove design gives your deck a clean, safe, fastener-free surface. Dream®Deck with Vy-Grain's superior strength and closed box design provides a crowned walking surface, which promotes water drainage. Dream®Deck with Vy-Grain™ is also available in three attractive colors, white, earthtone and gray.

Whether you are replacing an existing deck or building a new one, Dream® Deck Systems are the alternative decking products that will make your outdoor life more enjoyable.

The Dream® Composite Deck System features an attractive rough-sawn finish with a top V-groove design, and is available in four fade-resistant colors, Victorian Gray, Sandalwood, Mahogany and Black Walnut. Our Dream® Composite Deck Plank, developed with a patented PFP (Purified Fiber Process), eliminates the drastic color change commonly associated with other composites, so it still looks new after years of enjoyment. The excellent strength and durability of our plank is proven to be 30 to 50 percent stronger than other composite materials. The plank's composition is also resistant to insects, rotting and decay.

Dream® Rail Systems

If you've been searching for the perfect complement to your porch, patio or deck, Dream® Rail Systems have the solutions you've been looking for. Dream® Rail Systems provide a finishing touch to any surface, including wood, masonry and especially our vinyl or composite Dream® Deck Systems.

Personalize the look of your new Dream® Rail System with your choice of square pickets, contoured balusters or glass. Select from an array of post cap options: Standard, New England, Gothic or Ball. Color-coordinated to complement our vinyl deck components, all Dream® Rail Systems are offered in two UV-resistant colors, White and Earthtone, for a long-lasting, beautiful appearance.

Our **Dream® Rail Concealed Attachment System** offers a sleek, streamline design of maintenance-free, vinyl components with concealed fasteners, providing a look unmatched by any other system on the market.

Or, choose the **Dream® Rail EX System**. This unique combination of maintenance-free vinyl and durable die-cast zinc escutcheon components is an innovative and aesthetically pleasing alternative to bulky and obtrusive, bracketed rail attachments.

Enjoy an unobstructed view with the view-enhancing **Dream® Rail Glass Rail System**. The Dream® Rail Glass Rail System is a durable combination of 3/8" thick tempered safety glass and maintenance-free vinyl rail components.
